

In times like these, we need support for our small organization to survive and thrive. We still believe in the potential of social art practice to contribute to progressive societies.

Help us take care of our community of artists.

Due to the illegal capital control in Lebanon, we had to open a bank account in the name of the founder - exceptionally - to make this project happen.

We can provide proof of TAP's registration & bank details in Lebanon if needed.

No donation is small.

Become a supporter of this project today.
